Re: Request Notice be Submitted, ML 44866-MP - S/053/063, Washington County, Utah

Dear Mr. Pulsipher:

On May 16, 2000, we sent you a letter along with a copy of the minerals rules, an exploration notice form and a small mine notice form. You were informed that all mining operations had to be permitted with this office. Because you had a mineral lease issued by the School and Institutional Trust Lands Administration (SITLA) #ML 44866-MP and because during a Division site visit last April, mining was noted to have taken place on this lease located in Section 3, T43S, R15W, Washington County, Utah, we assigned mine file number S/053/063 to your project. We requested that you complete the appropriate notice and return it to this office. We have not yet received your response. SITLA has informed us that they have renewed your state lease for another year.

Please be advised that *conducting exploration or mining activities without a valid permit from this Division is a violation of the state mining law*. Please submit the appropriate notice form and the permit application fee by August 31, 2000 in order to avoid any enforcement action.

If you have any questions concerning this letter or the filing of the notice of intention form, please feel free to contact me at (801) 538-5382.

Sincerely,

Doug Jensen
Senior Reclamation Specialist
